Paul Baker:

**Re: Modification to the Pandora Mine (M/037/012) Vent Holes Final Submittal**

Enclosed is the final Pandora Vent Hole Amendment without redline strikeouts. Also enclosed is an updated map of the Pandora Mines with the two new vent holes shown and a map of the underground mine workings at the Pandora Mine. Denison Mines is currently conducting an engineering evaluation of the Pandora Mine in an effort to evaluate future mining activities. Following this evaluation, Denison Mines will submit an updated Notice of Intent for the Pandora Mine that will show new proposed vent hole locations, updated company information, an expansion of the waste rock area at the Pandora Mine, and updated mapping information. Denison hopes to have a revised NOI submitted to you within the upcoming year. Please feel free to contact me if you have any additional questions. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Christy Woodward".

Christy Woodward, PE  
Environmental Coordinator
